SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated March 3, 2021, the President amended the cost-sharing arrangements regarding Federal funds provided under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”), in a letter to Robert J. Fenton, Senior Official Performing the Duties of the Administrator, Federal Emergency Management Agency, Department of Homeland Security, under Executive Order 12148, as follows:

I have determined that the damage to the lands associated with the La Jolla Band of Luiseño Indians resulting from severe storms, flooding, landslides, and mudslides during the period of February 14 to February 15, 2019, is of sufficient severity and magnitude that special cost sharing arrangements are warranted regarding federal funds provided under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121 *et seq.* (the “Stafford Act”).

Therefore, I amend the declaration of March 26, 2019, to authorize Federal funds for all categories of Public Assistance at 90 percent of total eligible costs.

This adjustment to the cost sharing applies only to Public Assistance costs and direct Federal assistance eligible for such adjustments under the law. The Robert T. Stafford Disaster Relief and Emergency Assistance Act specifically prohibits a similar adjustment for funds provided for the Hazard Mitigation Grant Program (Section 404). These funds will continue to be reimbursed at 75 percent of total eligible costs.

Assistance to Firefighters Grant Program; Fire Prevention and Safety Grants

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This Notice provides guidelines that describe the application process for Fire Prevention and Safety (FP&S) Grant Program grants and the criteria the Federal Emergency Management Agency (FEMA) will use to award these grants for Fiscal Year (FY) 2020. It explains the differences, if any, between these guidelines and those recommended by representatives of the Nation's fire service leadership during the annual Criteria Development meeting, which was held December 11, 2019. The application period for the FY 2020 FP&S Grant Program was January 25, 2021, through February 26, 2021, and was announced on the Assistance to Firefighters Grants Program (AFGP)

website at: <https://www.fema.gov/grants/preparedness/firefighters>, www.grants.gov, and the U.S. Fire Administration website at www.usfa.fema.gov.

DATES: Grant applications for the FP&S Grant Program were accepted electronically at <https://go.fema.gov> from January 25, 2021, at 8:00 a.m. ET through February 26, 2021, at 5:00 p.m. ET.

FOR FURTHER INFORMATION CONTACT: Catherine Patterson, Chief, Assistance to Firefighters Grants Program Branch, (866) 274-0960.

SUPPLEMENTARY INFORMATION: The purpose of the FP&S Grant Program is to enhance the safety of the public and firefighters by assisting fire prevention programs and supporting firefighter health and safety research and development. The FEMA Grant Programs Directorate administers the FP&S Grant Program as part of the AFGP.

The FP&S Grant Program's authorizing statute requires that FEMA publish the guidelines that describe the application process and the criteria for grant awards in the **Federal Register** each year. Specific information about the submission of grant applications can be found in the FY 2020 FP&S Grant Program Notice of Funding Opportunity (NOFO), which is available for download at <https://www.fema.gov/grants/preparedness/firefighters>.

Congressional Appropriations

Congress appropriated \$355 million for AFG Program in FY 2020 pursuant to the *Department of Homeland Security Appropriations Act, 2020*, Public Law 116-93. From this amount, \$35.5 million will be made available for FP&S Grant Program awards, pursuant to 15 U.S.C. 2229(h)(5), which states that not less than 10 percent of available grant funds each year are awarded under the FP&S Grant Program. Funds appropriated for all FY 2020 AFG Program awards, pursuant to Public Law 116-93, will be available for obligation and award until Sept. 30, 2021.

FEMA anticipates that it will receive approximately 670 applications and may award approximately 100 FP&S Grant Program grants.

Background of the FP&S Grant Program

The purpose of the FP&S Grant Program is to enhance the safety of the public and firefighters by assisting fire prevention programs and supporting

firefighter health and safety research and development. FP&S Grant Program grants are offered to support projects in two activities:

1. **FP&S Activity:** Activities designed to reach high-risk target groups and mitigate the incidence of death, injuries, and property damage caused by fire and fire-related hazards.

2. **Research and Development (R&D) Activity:** Projects aimed at improving firefighter safety, health, or wellness through research and development that reduce firefighter fatalities and injuries.

FEMA awards grants on a competitive basis to applicants that best address the FP&S Grant Program's priorities and provide the most compelling justification. A panel of reviewers evaluates each project in accordance with the evaluation criteria. The highest rated projects are recommended for funding.

Award Criteria

All applications for grants will be prepared and submitted through the FEMA Grants Outcomes (FEMA GO) system (<https://go.fema.gov>).

Applications submitted under the FP&S Activity will be reviewed by a panel of fire service members using the following criteria:

- Financial Need
- Commitment to Mitigation
- Vulnerability Statement
- Project Description
- Implementation Plan
- Evaluation Plan
- Cost vs. Benefit

Applications submitted under the R&D Activity will be reviewed first by a panel of fire service members to identify those applications most relevant to the fire service. The following evaluation criteria will be used for this review:

- Purpose
- Potential Impact
- Implementation by the Fire Service
- Barriers
- Partners

The applications that are determined most likely to enable improvement in firefighter safety, health, or wellness will be deemed to be in the "competitive range" and forwarded to the second level of application review, which is the science panel review process. This panel will be composed of scientists and technology experts who have expertise pertaining to the subject matter of the proposal.

The Science Panel for the R&D Activity will review the application and evaluate it using the following criteria:

- Project Goals, Objectives, and Specific Aims
